## **I. INTRODUCTION**

The City of Victoria was first designated as the Metropolitan Planning Organization (MPO) for the Victoria Study Area in February 1982. The original decision-making body of the MPO was called the Victoria Urban Transportation Planning Committee (VUTPC). This committee was composed of state, county, and city officials, and charged with the task of being

*".....cooperatively responsible for the performance of the planning process including transportation systems plans developed as a part of the planning process; ensure proper coordination of transportation modes and between sub-areas; cooperatively establish transportation needs; and propose projects from all transportation modes for recommendation to those governmental units responsible for program development and project implementation."*

[State Department of Highways and Public Transportation Minute Order No. 76787, dated 20 February 1980]

The City and County of Victoria are the only political subdivisions located within the Victoria study area. The MPO is comprised an executive committee, six subcommittees, and two ad-hoc subcommittees. The Policy Advisory Committee serves as the executive committee. It includes nine voting and fourteen ex-officio (non-voting) members. The Policy Committee voting members represent the City of Victoria, Victoria County, TxDOT, the Victoria Regional Airport and the Victoria County Navigation District. Subcommittees include Technical Advisory, Nominating, Intermodal, Transit, School Transportation Planning, and Emergency Management Planning. Transportation Project Selection and Transportation Database make up the two ad-hoc subcommittees. Current MPO bylaws and organizational chart are available upon request at the City Planning Department, Victoria, Texas.

### **A. PURPOSE**

The Transportation Improvement Program (TIP) is a short-range list of proposed transportation improvement projects for the metropolitan area. The passage of the Intermodal Surface Transportation Efficiency Act of 1991 required the TIP to be developed by the MPO in cooperation with the State (TxDOT) and local public transit operators. The TIP must cover a period of at least three years, and must be updated every two years. The TIP is required to prioritize projects by the year in which they will be implemented.

A TIP must include all transportation projects within the metropolitan planning area proposed for funding under title 23, U.S.C. and the Federal Transit Act (with certain specific exceptions); only projects that are consistent with the metropolitan transportation plan; all regionally significant projects requiring FHWA or FTA approval (regardless of funding source); and, for informational purposes and air quality analysis in nonattainment and maintenance areas, all other regionally significant projects, regardless of funding source. The TIP is required to be financially constrained by year and include a financial plan that demonstrates which projects can be implemented using current revenue sources and which projects are to be implemented using projected revenues.

### **B. DEFINITION OF AREA**

The City of Victoria, county seat of Victoria County, is located in south Texas, 125 miles southwest of Houston, 85 miles northeast of Corpus Christi, 116 miles east of San Antonio, 125 miles southeast of Austin. The City is located 45 miles inland from the Gulf of Mexico and is situated on the Guadalupe River.

The Victoria MPO's Metropolitan Area Boundary (MAB), which is area within the MPO's geographic planning jurisdiction, coincides with Victoria County line. This area is also known as the study area. The boundary was amended to include the entire county in 1994. The MPO Urban Area Boundary (UAB) is roughly coincidental with the City limits of Victoria, and has not been significantly revised for the last several years. The City of Victoria is the only urbanized area and the only incorporated community within the study area.

### **C. PUBLIC INVOLVEMENT PROCESS**

The Victoria MPO has adopted a Public Involvement Program (PIP) in accordance with section 450.316 (b) (1) of 23 CFR Chapter I, Subchapter E - Planning, Part 450 - Planning Assistance and Standards (the Statewide and Metropolitan and Statewide Final Rule issued by the Department of Transportation in the October 28, 1993 Federal Register). The intent of the PIP is the implementation of a proactive public involvement process that provides complete information, timely public notices, full public access to key decisions, and supports early and continuing involvement of the public in developing plans (*Metropolitan Transportation Plans*) and TIPs (*Transportation Improvement Programs*).

At least thirty (30) days prior to adoption or amendment of the TIP, the MPO notifies the affected agencies, transportation providers and interested individuals ("transportation planning mailing list") in writing. At least one public hearing is conducted prior to the adoption or amendment of the TIP for the purpose of soliciting public input. Public notice is given at least ten (10) days prior to the public hearing as follows, including the posting of a Notice of Public Hearing and Meeting Agenda in the bulletin board/posting area at the front of the City of Victoria City Hall; mailed notice to the affected agencies, transportation providers and interested individuals on the above-referenced mailing list; and, distribution of a Media Release to local media. The notice includes the date, time and place of the public hearing; when and where the plan or TIP will be available for review; an offer to make a copy available upon request; a call for public comment; and, a deadline to submit public comment. In addition to receiving written and oral public input at the public hearing, the MPO accepts written comments up to ten (10) days after the date of the public hearing. The MPO will demonstrate explicit consideration of and response to public input received through the public participation process.

### **D. PROJECT SELECTION PROCESS**

Having been created in 1982, the Victoria MPO is a relatively new transportation-planning agency. The Victoria metropolitan area is also among the smallest populations designated to be served by an MPO in the state of Texas. As a result, much reliance must be placed on the expertise of the Texas Department of Transportation (TXDOT) during the project selection process. The Yoakum district office and the Victoria Area office of TXDOT have historically determined how funding is to be allocated among potential project candidates within the county, pending discussion with appropriate public officials. As Victoria County continues to grow, the MPO has slowly developed the capacity to function as a participant in project selection decision-making.

Dialogue between the MPO and TXDOT regarding project selection procedures has continued. Due to the short-range nature of the TIP and the amount of time it takes to move a project through the feasibility, funding and design processes, TxDOT must take the lead in developing the TIP. The main objective of the MPO Policy Advisory Committee should be to determine that community consensus regarding the utilization of funds extended to the county has been reached. Constructive input is more likely to benefit the community when MPO input is communicated to TXDOT during the development of the Unified Transportation Plan (UTP). The UTP is prepared to identify projects 10 years in advance, and MPO or public input could be more realistically incorporated into a system improvement strategy than at the Transportation Improvement Program (TIP) stage, when project development is approaching funding and implementation authorization clearance.

The Metropolitan Transportation Plan (MTP) should be the primary planning tool for selecting major projects to be included in the UTP and TIP. Only projects that are consistent with the 2025 MTP may be selected for the TIP.

Once the TIP is developed and approved, project selection for implementation from the TIP occurs as follows. Any project listed in year one of the TIP is considered to be in the first level of priority and may be implemented as soon as plans are completed and funds are appropriated. If for any reason a project is not implementable from the first year of the TIP, projects should be selected from the second and/or third year. Such projects may be implemented as plans are completed and funds are appropriated.

### **E. PROGRESS FROM PREVIOUS YEAR**

#### FEDERALLY FUNDED PROJECTS:

1. US 87 - Placedo to Calhoun County Line. Adding 2 lanes for a 4 lane divided facility. Construction plans being prepared. Project to Let in April 2004.
2. US 87 – From North Street to Goodwin. Construct Railroad Grade Separation. Project Completed in December 2004.
3. US 77/LP 463 – at US 87 and Briggs Blvd. Construct Grade Separations. Project Let in March 2004. Estimated completion in June 2005.
4. US 59 – From US 59B/LP 463 to US 77/US 59 – Adding 2 lanes for a 4-lane divided facility and Grade Separation. Project Let November 2001. Project Completed.
5. Loop 463 – at FM 236 and FM 1685 – Construct Grade Separations and interchanges. Project was Let in July 2002. Project Completed.
6. Loop 463 - From US 87 to Salem Road (FM 1315). Construct Frontage Roads and Grade Separations. Project Let in September of 2001. Mainlanes were opened in January 2005, project near completion.
7. US 77 from Garcitas Creek to Northside Road – Add 2 lanes for a 4 lane divided facility. Project Let in January 2003. Project Completed in December 2004.
8. US 77 From Garcitas Creek to Dewitt County Line – Add 2 lanes for a 4 lane divided facility. Project Let in January 2003. Estimated completion in June 2005.
9. Transportation Enhancements – Construct sidewalk along the north side of Mockingbird from Laurent to Main; along the east side of Vine from Main to Magnolia; along the west side of Vine from Magnolia to Red River; and a pathway from Vine to Red River along the West Outfall. Currently under construction.

#### STATE FUNDED PROJECTS:

10. FM 616 – From Placedo to Jackson C/L. Reconstruct Roadway. Project Let in March 2004. Estimated Completion in March 2005.

## PUBLIC TRANSPORTATION PROJECTS:

In Fiscal Year 1999 began a 4 vehicle demand-response public transportation service. The service consists of four 15-passenger Type III ADA vehicles that operate a curb-to-curb service Monday through Friday. The system incorporated at least 5 Type III vehicles and 6 lease vehicles and had been servicing approximately 4000 riders per month.

Victoria Transit started the "Fixed Route" service along with a complimentary para-transit service in March of 2002 and offered free ridership for the first two months to allow the public to learn about the system and to see if any major changes needed to be made to the route and stop locations. In May of 2002, a \$1.50 General Fare (\$.75 for Elderly, Handicap/Disabled) was put in place. The starting fare for the Fixed-Route system was the same as the former Demand-Response system, \$1.50. Ridership dropped and in July 2002, the general fare was decreased to \$1.00. Ridership rose slightly. However, in November of 2002, Victoria Transit once again offered free service and ridership rose from 4364 riders in November 2002 to over 10,000 riders in June, July and August of 2003 and peaking at 11,444 in October of 2003.

In the fall of 2002, the Victoria MPO solicited the services of LKC Consulting to review and audit the operation of Victoria Transit. With the completion of the review of Victoria Transit by LKC Consulting several recommendations were made by LKC to improve the service and ridership of Victoria Transit. Several main points were taken from the review; Begin charging a Fare so that the riders buy into the system; provide amenities such as benches and shelters; and establish a marketing campaign. After receiving input from riders at several public meetings in the summer of 2003, Victoria Transit established a \$.50 General Fare in November of 2003. Ridership dropped drastically. However, ridership began to slowly increase in December and January of 2004 and suddenly went over the 10,000 ridership mark in March 2004. To date, Victoria Transit is averaging 12,000 riders per month or about 600 riders per day.

With regards to benches and shelters, Victoria Transit has received a grant of \$125,000 to be used toward the purchasing and placement benches and shelters. Victoria Transit and City Staff have identified 21 locations for either a bench and/or shelter and are currently reviewing locations for safety and necessary improvements. A style and color has also been selected and Victoria Transit is working on developing cost estimates and bid packages. Benches and shelters will soon be a reality.

In the upcoming Fiscal Years the Victoria MPO will be working with Victoria Transit in developing a Web Page for Victoria Transit and begin developing an outline for a marketing campaign.

Victoria Transit not only offers the Fixed-Route service, they still provide a Demand-Response service for those that qualify as Handicap / Disabled and the offer a Medical Transport service for those who are eligible. The Demand-Response service is funded through the same Federal and State sources that fund the Fixed-Route service and the Medical Transport are funded through the Department of Health.

## **F. AIR QUALITY**

Victoria County, the metropolitan planning area of the Victoria MPO, is currently designated as an Attainment Area operating under a "limited" maintenance plan.

## **G. AMERICANS WITH DISABILITIES ACT (ADA)**

Victoria is currently served by a Demand-Response public transit system that is ADA compliant. In the near future, the Demand-Response system will be transitioning to a Fixed-Route system with a required complimentary para-transit service.

## II. PROJECT LISTINGS

### GLOSSARY OF TERMS

**CSJ** Control Section Job Number - TXDOT assigned number for projects entered into the Project Development Program (PDP).

**PROJ ID** Project Identification - Code assigned by the MPO for local tracking/identification. Used to relate projects to the Metropolitan Transportation Plan.

**F. CLASS** Federal Functional Class - Federal classification of streets and highways into functional operating characteristics. Categories are:

Interstate  
Other Urban Freeways and Expressways  
Other Principal Arterials  
Minor Arterials  
Urban Collectors and Rural Major Collectors  
Rural Minor Collectors  
Urban and Rural Local Streets and Roads

**FED PROG** Federal Funding Category - Major categories of Federal funding as established by the Intermodal Surface Transportation Efficiency Act of 1991 (ISTEA). Categories are:

IC - Interstate Construction  
IM - Interstate Maintenance  
NHS - National Highway System  
STP - Surface Transportation Program  
CMAQ - Congestion & Mitigation Air Quality Funds  
Bridge - On/Off System Bridge Rehabilitation  
DSB - Donor State Bonus Funds  
MA - Minimum Allocation Funds  
FLHP - Federal Land Highway Program  
FTA - Federal Transit Administration Funding

**PHASE** Project Phase for Federal Funding (E-Preliminary Engineering, R-Right of Way Acquisition, & C-Construction)

**FEDERALLY FUNDED  
HIGHWAY PROJECTS**

## MPO SELF-CERTIFICATION

We, Lonnie Gregorcyk, a duly authorized representative of the TEXAS DEPARTMENT OF TRANSPORTATION, and Shirley Buckert, a duly authorized representative of the VICTORIA METROPOLITAN PLANNING ORGANIZATION, hereby certify and attest that the transportation planning conducted within the Metropolitan Planning Area by its agents and/or representatives is addressing the major issues facing the area and is being conducted in accordance with all applicable requirements of:

- (1) Section 134 of Title 23, U.S.C., Section 5303 of Title 49, U.S.C., of 23 CFR Part 450 and 49 CFR Part 613 (Federal Register, October 28, 1993);
- (2) Sections 174 and 176(c) and (d) of the Clean Air Act (42 U.S.C. 7504, 7506(c) and (d));
- (3) Title VI of the Civil Rights Act of 1964 and the Title VI assurance executed by each State under 23 U.S.C. 324 and 29 U.S.C. 794;
- (4) Section 1003(b) of the Intermodal Surface Transportation Efficiency Act of 1991 (Pub. L. 102-240) is regarding the involvement of Disadvantaged Business Enterprises in FHWA and FTA funded planning projects (Sec. 105(f), Pub. L. 97-424, 96 Stat. 2100; 49 CFR Part 23); and
- (5) The provisions of the Americans with Disabilities Act of 1990 (Pub. L. 101-336, 104 Stat. 327, as amended) and U.S. DOT regulations ATransportation for Individuals with Disabilities≡ (49 CFR Parts 27, 37, and 38)

The Victoria County Study Area continues to attain the National Ambient Air Quality Standards and is considered an attainment area operating under a limited maintenance plan.

Witness these signatures this \_\_\_\_ day of \_\_\_\_\_, 20\_\_\_\_\_.

**CONFORMITY  
DETERMINATION**

CONFORMITY DETERMINATION  
FOR THE  
2030 METROPOLITAN TRANSPORTATION PLAN (MTP)  
AND  
FY 2006-2008 TRANSPORTATION IMPROVEMENT PROGRAM (TIP)  
FOR THE VICTORIA METROPOLITAN PLANNING AREA  
NOVEMBER 8, 2005

In 1978, Victoria County was designated non-attainment for ozone, in accordance with the section 107 of 1977 Clean Air Act (CAA). Following the enactment of the 1990 CAA Amendments, Victoria's ozone non-attainment designation was continued and the area was further designated as non-classifiable/incomplete data for ozone. The latter designation was due to the lack of air quality data, necessary to petition for redesignation to attainment.

On March 7, 1995, the Environmental Protection Agency (EPA) redesignated the Victoria area as attainment and approved the area's Maintenance State Implementation Plan (SIP). The Victoria Maintenance SIP is characterized as a "Limited Maintenance Plan" and does not contain a motor vehicle emissions budgets or Transportation Control Measures (TCM). The absence of a motor vehicle emissions budget allows the Victoria area to demonstrate conformity on a qualitative basis, rather than through a quantitative (regional) analysis.

Therefore, the 2030 - Victoria Metropolitan Transportation Plan (MTP) and FY 2006-2008 Transportation Improvement Program (TIP) are hereby found to conform to Victoria's "Limited Maintenance Plan" (SIP).

The procedures used to make this conformity determination for the 2030 MTP and FY 2006-2008 TIP, are in accordance with the following:

- The provisions of the March 7, 1995 US Environmental Protection Agency rule to designate Victoria as an attainment area operating under a limited maintenance plan;
- The transportation conformity rule (40 CFR Parts 51 and 93) dated November 24, 1993 and as amended; and
- The Clean Air Act Amendments (CAAA) of 1990.
